"Age does not wither, nor custom stale his infinite variety." *Vide* critique in *Times of India*, November 15th, 1877.

"On Wednesday night and again last night, Dave Carson's Company performed before tolerably well-filled houses a most entertaining programme—music, dancing, and a variety of amusements—affording unflagging delight to all. . . . There were several very good jokes and local hits, of a pleasant character, which told with the house. . . . Dave, as usual, showed to great advantage, and seems as fresh and hilarious as the first day he appeared in Bombay—"In the good old times," as he would say. He was welcomed heartily on the first night, as an old friend deserved to be." *Vide Bombay Gazette*, November 16th.

DR. KIRBY'S PHOSPHORUS AND COMBINATION PILLS

ARE extensively used, adopted and recommended with remarkable success, for NERVOUS DISEASES characterized by DEBILITY, IMPOVERISHED BLOOD, and LOSS OF NERVE POWER, conditions induced by *physical and mental* OVERWORK, by *excessive and prolonged anxiety, worry, dissipation and excesses of various kinds.*

It has been found especially useful in NEURALGIA, *Nervous Dyspepsia, Lowness of Spirits, and other manifestations of nervous exhaustion.*

Brain workers, Clergymen, Literary and other Professional Men who are habitually overworked, or periodically subject to severe mental strain, derive much benefit from a course of Phosphorus taken in this form.

As a TONIC for CONVALESCENTS recovering from fever and other exhausting diseases, it will be found superior to all other preparations of Iron.

AS BRAIN FOOD there is no substitute for Phosphorus. In medicinal doses, it stimulates all the secretions, especially that of the kidneys, and is found beneficial in Gouty and Rheumatic Affections.

[See Dr. Kirby's Work on "*The Value of Phosphorus*," published by H. K. Lewis.]

THE "S. ANDREW'S" M

COMMERCIAL INTELLIGENCE

SATURDAY EVENING, 17TH NOV. 1877.

THE past week has not been particularly active, but there are, nevertheless, evidences of an approaching better state of things, and a slightly more cheerful tone pervades business generally. Piece Goods are in decidedly better request than they had been up to the holidays, and imports generally show more signs of life; while in exports, transactions are only limited by the small stocks of produce available, and when the new crops begin to come forward in quantity there is every sign of an active trade. Money is getting easier every day and Freights are cheap, two very important features in favour of exports, and all we require to ensure an exceptionally good season is favourable markets in Europe. This is the one point, however, in which nothing is certain but uncertainty, and which will doubtless be the source of such adverse influences as we have to look forward to. No amount of calculation will enable one to form such an estimate of the future of European politics as would be safe to operate on, and there will be a tendency, therefore, to keep transactions within narrower limits than might otherwise be the case. But this perhaps may prove not altogether an unmixed evil, and so far as the war now raging betwixt Russia and Turkey is concerned, we have in Bombay at least the consolation that the fluctuations in the struggle which adversely effect one branch of business have an opposite effect on others. Strong prospects of peace, for instance, would doubtless give a considerable impetus to Cotton, while Wheat and Seeds would be depressed, and vice versa.

MONEY.—The last published statement of the Bank of Bombay, for the week ending on the 10th instant was again of a favourable character, the Cash Balance showing an increase of 13¼ lacs, arising from an addition of 5 lacs to the Government Balance and an increase of 8¼ lacs in other Deposits. This addition, to an already strong position, led, as was to be expected, to a reduction in the rates of discount of one per cent. all round at the usual weekly Board Meeting on the 14th instant, and it seems generally anticipated that we may see a like movement again this week. The official charges now stand at 7 per cent. on fixed and 8 per cent. on demand loans secured by Government Paper, but in the open market fixed loans for a short period on the same security could be negotiated at 4 per cent. per anum. Such a wide discrepancy as this cannot long exist; either the market must rise to nearer the level of the Bank or the Bank's charges be reduced, and in the present state of things, the latter course is by far the more likely. The position and requirements of Government certainly constitute an element of considerable uncertainty, for which some allowance must be made, but from what we can learn the Government account has now passed its point of greatest pressure, and so far as trade requirements go we have the certainty that they must be exceedingly light for the next two months at least. Silver, in the meantime, is being poured into the country both from England and China on an enormous scale. The Mint in Bombay is turning out rupees at the rate of 25 lacs a week, but notwithstanding this the balance of uncoined Silver has accumulated to the extent of 3½ crores, while there is afloat from Southampton at the moment 1½ millions sterling, and from China probably as much more. These figures show a supply far in excess of our present requirements, and from this alone, if from no other cause, we might count on cheap money until our export season is well advanced.

EXCHANGE.—The market for Sterling has been characterised by great weakness, and our closing quotations show a decline on those given in our last report of quite 1¼ per cent. The downward movement commenced last mail day by a sudden drop of 2/16d. to 2¾d., owing to advices from London of Bar Silver having receded from 55d. to 54½ per oz., so that business for this mail really opened on Tuesday morning on the basis of 1s. 8¾d. for demand Bank, and 1s. 9 7/16d. for 3 months' sight Credit Bills. On Tuesday, however, Silver came from London 54½d., and a further decline of 1/16d. was established. Wednesday brought no quotations of 54¾d. for Silver, causing a further fall of 1-16d. in Bank Bills and ¼d. in Private Paper, and the lowest point of the market was touched at 1s. 8¾d. for demand Bank and 1s. 9¾d. for 6 months' sight Credit Paper. On Thursday, although no change was advised in Silver, a steadier feeling was apparent, and rates partially recovered 1-16d. The advance was fully established in Bank Bills on Friday, and on Saturday with Bar Silver quoted as having recovered to 54¾d. a rise of 1-16d. took place all round, making closing quotations:—Bank Bills on demand 1s. 8¾d., 6 months' sight 1s. 9¾d., Credits 3 months' sight 1s. 9 5-16d., 6 months' 1s. 9 9-16d., Documents 3 months' sight 1s. 9¾d., 6 months' 1s. 9¾d. per rupee.

The transactions in ready bills for this mail, although larger than for some time past, have not been heavy, nor has there been a large amount of paper negotiated for future delivery. In the early part of the week, when the market was declining rapidly, the Banks withdrew altogether as sellers forward, but were anxious buyers, and 1s. 9¼d. for 3 months' sight Credits for delivery up to March was the current quotation for a couple of days. Latterly, since greater firmness has been observable, the day's rates for ready bills have been obtainable only up to the end of the year, further forward the Banks do not assume a drawing rate but they will buy at an advance of 1-16d. on to-day's figures. The tendency thus indicated is that the present slight reaction is not expected to be more than temporary, and although we now stand 2¼ per cent. lower than we did six weeks ago, we are still inclined to consider the weight of opinion in favour of a further fall between this and the busiest part of our export season. By means of imports of Silver, the Banks are understood to have laid down funds much in excess of current requirements, and should the Secretary of State, as seems probable, become a seller of drafts on India again at an early date, the sterling value of the rupee could only be maintained by a scale of exports which we are not likely to see before March at the earliest.

On Calcutta there has been next to nothing doing this week, to-day's quotations being 3-16 per cent. premium for demand, and ¼ per cent. discount for 60 days' sight.

On China the nominal quotation for 60 days' sight Mercantile Bills is Rs. 217 per 100 dollars.

From Hongkong the latest quotation for 6 months' sight Bank Bills on London is 3s. 11d. per dollar, and from Shanghai 5s. 5¼d. per tael.

GOVERNMENT SECURITIES.—The transactions during the week have been confined to small amounts in the Bazaar, and these are the quotations, which are ¼ to ¼ higher on the week. Of large amounts there are neither sellers nor buyers in the market at the moment. We quote:—Fours Rs. 94½; Fours-and-a-half Rs. 94½; Fives-and-a-half Rs. 102.

SHARES.—The market opened firm and a fair amount of business was done, but latterly has been weak with declining prices. As usual *Spinning and Weaving* Companies have received most attention and have undergone most fluctuations, which, with few exceptions have ended in favour of buyers. We quote a rise of Rs. 25 in Alliance, Rs. 30 in Fleming, and Rs. 10 in Khandesh, Madras, United and Swadeshi. On the other hand, our quotations show a decline of Rs. 85 in Nicol Manufacturing Co., Rs. 40 in Hydrabad, Rs. 25 in Colaba, Rs. 15 in Great Eastern, Hindustan, Oriental, and Soonderdas, Rs. 5 in Dhurrumsey, Manockjee Petit and Nursey, Rs. 2½ in Broach Mills, and Rs. 2 per share in Anglo-Indian. For *Press* Companies there has been a slightly better feeling apparent. Bellasis have advanced Rs. 50, Scinde Press Rs. 25, New Berar Rs. 20, and Mofussil Rs. 15 per share. *Land* shares are neglected, the only movement being an advance of Rs. 5 in Colaba. In *Banks* the only movement reported is an advance of Rs. 2 per share in Agras. Nationals remain at Rs. 105 and Bank of Bombays at 39½ per cent. premium.

With few exceptions our quotations for PIECE GOODS remain the same as last week, although the demand has been very steady and a fair business done. Up-country buyers have operated very freely in the Bazaar, the clearances being estimated at 1,500 to 2,000 packages for the week, but dealers, having still large supplies to fall back upon, have not brought so freely from first hands, who are only estimated as having sold about 500 packages. There can be no doubt, however, that stocks are gradually being worked into smaller compass, as dealers are beginning to show more willingness to send forward indents, and, although it may take some months yet to bring it about, there is at last some prospect of supplies and demand being brought more on a parity. The shipments from home for the first two weeks of the current month, as advised by wire, are unusually light to begin with, and a maintenance of light shipments for even one or two months would go a long way towards placing the market on a sounder basis.

In Grey Goods the business of the week has as usual been mainly in Shirtings, of which 40 and 44 inch have been in fairly active demand, 50 inch steady, 60 inch neglected. Printers are in light supply and firmly held, Madapollams are in fair request at fully previous rates, as also are Dhoties, but other things, although steady, are quiet. In Bleached Goods, the enquiry has run chiefly on Jaconets, Mulls and Nainsooks, for which in some cases slightly easier rates have been accepted, and in Dyed and Printed Goods there have also been sellers at a reduction. Turkey Reds are very quiet all round, and prices are barely supported. In Local Goods there have been clearances this week of about 3,000 bales at fully former rates.

TWIST.—Only a very moderate business has been done in English Yarns this week, and the position remains virtually unchanged. Supplies are not excessive, and prices, although no higher, are very firmly supported.

For Bombay Twist the demand has been a trifle slack, and prices are only just supported.

METALS.—*Copper.*—A limited business is reported at unchanged prices. Stocks are moderate. *Yellow Metal* is dull and somewhat difficult of sale. Sheathing is quoted As. 8 per cwt. lower, but other descriptions are unchanged. Stocks about an average. *Iron.*—A large business has been done this week, but supplies being large prices have undergone no change.

COALS.—The relative state of the market is unaltered, Coals on the bunder being still difficult of sale, while distant arrivals are scarcely offered, and being in some demand are consequently saleable at As. 8 to As. 12 per ton over landed prices. The only transactions to arrive have been in Londonderry West Hartley, of which the cargoes for "Nenuphar" and "Shakespeare" have changed hands at Rs. 18 to Rs. 18-2 per ton alongside. The following are to-day's quotations, landed, and to arrive:—

Davison's West Hartley landed	Rs. 17½	to arrive Rs.	18½
Cambois Cowpen	none	"	17
Laird's Welsh Hartley	"	16	" 17
Watson's Hartley	"	16½	" 17½
Cardiff	"	17	" 17

COTTON.—The Liverpool advices in the early part of the week evinced considerable activity, and a partial improvement of 1/16d. per lb. was reported. Latterly duller accounts have come to hand, and a portion of the previous advance has been lost. Our market here has followed a similar course as regards New Crop which advanced Rs. 2 to Rs. 3 per candy to begin with, but has since declined Re. 1 to Rs. 2, while Old Cotton has maintained about former values throughout, the local mills being still the chief buyers. The transactions of the week sum up about 3,500 bales Old Cotton, of which about 2,500 bales have been for local consumption and 1,000 bales for export. Of the former, the bulk has been made up of half pressed Dholleras at Rs. 198 to Rs. 204 according to quality, and the latter of Veravals at Rs. 185 half pressed and Omras at Rs. 201 to Rs. 203 for F. G. F. full pressed. In New Cotton the following purchases are reported:—

300	bales	Hingunghaut	Jan. delv. at Rs. 215 to Rs. 217 f. p.	
200	"	Good Akote	Feb. " Rs. 200 to " 203	"
200	"	" Omra	" " Rs. 200 to " 215	"
1500	"	" Gd. Broach	" " Rs. 212 to " 215	"

The *Receipts* from up-country during the week have been about 7,400 bales, making a total of 34,000 bales since 1st September against 15,300 and 73,500 bales respectively last year.

The *Clearances* for Sea since the departure of last mail have been 6,690 bales, making 825,331 bales since 1st January against 961,094 bales for the corresponding period last year.

In *New Crop* accounts there is little to add to our report by last mail. Picking in the Omrawuttee districts is becoming more general, and about 200 bales of that description has come to market. The quality so far is not particularly good, a considerable quantity of black leaf being apparent, but the staple is above an average and the second pickings will probably show better as to quality. Hingunghaut is also beginning to come forward in small quantities, and the same remark is applicable to it as to Omras. Broach is reported to be in flourishing condition, and small sample lots may be expected about the end of next month. Compta and Dharwar promises well, but Dholleras of all kinds are undoubtedly a poor crop. Former estimates of the season's yield are still in favour.

The following are to-day's quotations for Cotton with the equivalents in Sterling Cost and Freight to Liverpool, via Canal, without Commission:—

SEEDS.—*Linseed* continues in fair request, and supplies being moderate, prices on the spot have advanced to Rs. 6-9 to Rs. 6-10 per cwt. For April May delivery the quotation is Rs. 6-4, per cwt. *Rapeseed*, in the absence of supplies, is almost nominal at Rs. 7-8 to Rs. 7-10 per cwt. In *Gingelly* business has been done in Mixed at Rs. 42½ per candy.

WHEAT.—Supplies have increased latterly, but they still consist chiefly of inferior and weevilled parcels. Business has been done for export in Mixed at Rs. 31 to Rs. 33 and in Best White at Rs. 34 to Rs. 35 per candy, but the latter is very scarce.

STEAMER REPORTS.

GALLE, Nov. 17, 10 A. M.

Mail Steamer Teheran, from Bombay, arrived.

WHILE we are glad that honourable employment has been found for Mr. John Jardine in the Bombay Secretariat, it is only fair to point out that the transfer of that gentleman from the service of Government of India back to his own Presidency has not done away with the bad consequences of the Simla job of appointing Mr. Macpherson Deputy Secretary in the Legislative Department; it has only made some one else in Bombay the victim of that job, instead of Mr. Jardine. Lord Lytton telegraphed down to Sir Richard Temple to find Mr. Jardine a place, so that it might not be supposed he had left Simla under a cloud; and the Governor of Bombay, with his usual eagerness to serve the Viceroy, at once arranged that Mr. Jardine should act for Mr. Gonne during the latter's absence on leave. But this arrangement displaces a Civil Servant, Mr. Nugent, of Mr. Jardine's own standing, and of equal experience and reputation; and it seems at least as hard that Mr. Nugent should suffer loss of position and pay for the benefit of Mr. Macpherson as that Mr. Jardine should do so. But the present Governor of Bombay appears to be willing to disregard the righteous claims of all public servants in this Presidency whenever Lord Lytton orders him to take upon himself the responsibility for some particularly odious job. The Viceroy must find it convenient to have such a cheerful scapegoat.

THE *Spectator*, in a notice of Lord Dufferin's delightful speech to the Icelanders who have settled in Canada, gives the following very significant hint to Lord Lytton:—"Lord Dufferin continues to secure for himself a world-wide reputation, without embarrassing his country by wild plans or flagrantly foreign policy."

THE death of Mrs. Maclean, wife of Captain J. G. Maclean of the 14th Sikh Regiment, took place at Peshawur on Friday week, under the following distressing circumstances. Mrs. Maclean had been suffering from slight fever, and received a prescription from the Surgeon of the regiment, which was sent to the native doctor, who, it appears, put prussic acid into the fever mixture by mistake, of which the deceased lady died in about a quarter of an hour after she had taken it. The native doctor is, of course, under arrest.

EXTRA ASSISTANT COMMISSIONER HAKIM RAI, of the Kohat settlement, was murdered on the 11th instant by being stabbed. The cause of the assassination is believed to be from private animosity.

THE sufferers who were injured in the recent collision near Naggery are progressing favourably at the General Hospital. They are Edward Burke, Charles Henry Crawford, Andrew Williamson, and police peon Rungasawmy. Burke, Crawford, and Williamson are sailors. Fortunately, neither of these men was seriously hurt, their injuries consisting chiefly of severe cuts and bruises. Rungasawmy, the police peon, was more severely injured, having four ribs broken, and two fractured wounds in his legs, besides severe cuts and bruises. Moonasawmi, the Assistant Station Master at Naggery, who is considered entirely responsible for the accident, will be committed to the Sessions to be held at Chittoor on the 28th proximo, and charged with culpable homicide, in that by his negligence he caused the late accident near Naggery, which has resulted in the death of five persons.

OUR correspondent at Broach writes as follows:—"The melancholy intelligence of the violent death of Mr. Dhunjeebhoy Burjorjee Cambatta in the late railway collision near Naggary, on the Madras Railway, has cast a gloom over the Parsee community of Broach, as that gentleman belonged to this town. The deceased was the grandson of our well-known and esteemed townsman, Khan Bahadoor Rustomjee Sorabjee Dulal; and was returning to Calicut to join the firm of Messrs. Cooverjee Ardesir and Co., of which he was the leading partner. The deceased was highly respected among the community, and was a man of great commercial tact and ability. The deceased was cut off in the prime of life, and leaves behind him a wife, two children, and aged parents, to mourn his premature death."

A SAD accident has happened at Seoni. A few days ago a tiger killed a cow and infested the public road, when Mr. Duff, the District Superintendent of Police, Seoni, set out with one of his faithful servants and some beaters. They had not gone far when they discovered the tiger lying under the shade of a tree. The moment was opportune, and not to be lost. Mr. Duff ordered his men to draw the trees round him with their guns ready. His servant, who was a good *shikari*, was ordered up a tree, whom he was soon to follow; but in the hurry of the moment, when Mr. Duff was about to climb the tree, he handed his gun to his servant in such an awkward manner that it went off, shattering the left arm of Mr. Duff. He was instantly removed to the city hospital, and had his arm amputated. Mr. Ligard, the Deputy Commissioner of the place, was greatly moved at his misfortune, and on trying the case sentenced the servant to three months' rigorous imprisonment, in spite of the clear evidence of Mr. Duff that the case was purely accidental.

TWO young ladies were almost burnt to death at the procession on All Souls day at the Roman Catholic burial ground, Rangoon. It would appear that their trains took fire from the lighted candles placed over the graves on a level with the ground.

LIEUT. WM. JOHN GILL, Royal Engineers, has reached Mandalay, crossing China by Sechuen and Bhamo. He has met everywhere with the greatest civility.

LORD WILLIAM BERESFORD, Aide-de-camp to the Viceroy, is to be attached to the staff of Brigadier General Keyes during the expedition against the Jowakis.

THE 22nd P. N. I. have been ordered to hold themselves in readiness for action in the early part of this week, and it is stated that the 9th Foot, now *en route* to Peshawur from Rawalpindi, has been directed to press on to Peshawur as quickly as possible.

THE latest reports received from the camp at Paiya state that all are well. Heavy rain had much inconvenienced the movements of the troops. A large body of the enemy who had gathered in force, attacked a company of the 5th Punjab Native Infantry on the afternoon of the 12th instant, while affording protection to camp-followers engaged in cutting *jowar* for the use of the cavalry and baggage animals. They were repulsed with the loss of two killed and, it is believed, with a considerable number wounded.

THE 32nd Pioneers under orders for Quetta left Jhelum on the 9th instant, leaving a depot of 40 in the lines. They expect to reach Jhung on the 27th instant, Multan on the 7th December, and Rajanpore on the 23rd December. From thence the left wing and head-quarters under Colonel Morgan go to Khelat to join the Governor General's Agent. The right wing, under Lieutenant-Colonel Fellows, will be employed in constructing a road through the Mari Bagti hills towards Quetta. The Government has dealt liberally with the regiment in giving to the families of the men free passages to their homes when wished for. The men are reported to be in excellent spirit and full of eagerness for the service appointed them, so much so that it has been a difficulty to select the men to leave behind. The 32nd is at full strength, with seven British combatant officers and two medical officers.

THE Court of Inquiry which assembled at Trichinopoly to investigate certain charges against Major Wingfield, 38th Regt. N. I., has concluded its sittings, and the proceedings have been forwarded to Head Quarters for the orders of the Commander-in-Chief.

HIS EXCELLENCY the Commander-in-Chief in India has, with great pleasure, awarded Private Ummanath, of the 30th Madras Native Infantry, the silver medal and Rs. 100, for proving himself to be the best shot in the Native Army.

WITH the sanction of Her Majesty's Secretary of State for India in Council, it has been decided that, "after thirty-five years' service, counting from the date of his arrival in India, an officer shall not, except for special reasons, with the sanction of the Secretary of State, retain his office or be appointed to any new office. Provided that, if such an officer has held his office for less than five years, he may, for special reasons, with the sanction of the Government of India, be permitted to retain his office until he has held it for five years. The term 'office includes an officiating appointment."

THE Governor of Madras was at Trichinopoly the other day, where he was presented with an address by the native inhabitants, in replying to which His Grace made the following remarks on the famine and was able to speak hopefully of the future: "We have passed through a year of terrible calamity and suffering; there is no doubt it has been the cause of intense suffering, but let us hope that it may be made the means of preventing, or at least alleviating suffering in future. We are now drawing rapidly to the end of this calamity, and I am glad to be able to tell you, that during the past seven weeks our mortality returns, which were terribly high, have dwindled down to almost nothing, and I trust, before the close of the year, that all those now dependent on Government, with the exception of the sick and infirm, will have returned to their homes and absorb themselves into their own callings and labour. The task we have had to perform has been a difficult one, and I cannot allow this opportunity to pass without bearing witness to the patience and long suffering with which this terrible calamity has been borne by all classes. I trust that all fear for the future has now passed away. The charitable aid of England has greatly assisted the Government in coping with the famine, and I feel sure that it has not been misapplied. I did not join the inhabitants of Madras in their request for aid until I was convinced that, without public aid, Government efforts would be in vain, and that there were needs most pressing which Government could not reach. I concurred in that appeal because I felt sure that it would be nobly met. I trust that none of us may ever again see such a calamity as that through which we have just passed, but hope that we may have learnt experience in the past, which may enable us to avert such dreadful suffering in the future."

MR. KNOX, Deputy Commissioner of Gurgaon, who has just returned from furlough, has been attacked by small-pox, and it has been necessary to relieve him by Mr. Roberts from Ferozpore, who, for some time past, has been in charge of the Gurgaon district.

MESSRS. BORRADAILE, SCHILLER AND Co. stopped payment on Monday last. Their liabilities are estimated at about 53 lakhs of rupees. The failure, says the *Statesman*, "is attributable, we believe, to losses in connection with the grain trade. There are rumours that one or two other firms in Calcutta are also fated to become victims of the famine."

FROM an advertisement in the Calcutta papers, we see that the *Leader*, owing to its proprietor's compulsory return to Europe, has ceased to exist as a weekly journal in Calcutta. The *Indian Daily News* remarks, "We are sincerely sorry for this. Whether agreeing or disagreeing with the arguments put forward by the *Leader*, we have always found in them matter wherewith to whet perception; and it seems to us an extreme pity that this most useful journal should have come to an untimely end. Educated people in Bengal will miss it when it has gone." The *Madras Mail* gives us the following brief outline of the Indian career of the departing editor:—"The *Leader* was started some months ago by Mr. James Hutton, and it has been conducted by that gentleman with conspicuous ability; but the metropolis seems a poor field for a weekly review, and Mr. Hutton leaves Calcutta for England in a day or two. He is one of the veterans of the Indian Press. He came out to this country as an Ensign in a Queen's regiment about thirty-five years ago, tumbled into a fine fortune, tumbled out of it, then applied himself to newspapering, and has edited the *Delhi Gazette*, the *Bengal Hurkaru*, the *Englishman*, the *Madras Times*, and the *Leader*. His connection with the Presidency was brief, and his retreat not quite glorious; but he gave us a taste of mature editorial qualities, and if he had not fallen foul of the Duke and Mr. Coleman, he would probably have been still among us; but he lost his temper with those personages, and the *Madras Times* and Presidency lost him in consequence."

A CORRESPONDENT writes, dated Kulu, Nov. 7: "Between 11 and 12 o'clock on the night of the 3rd instant, we had two shocks of earthquake, very severe indeed for this part of the world—there was some difficulty in keeping one's legs, the oscillations were so violent. I thought the house was coming down, it shook so. I have not heard of any damage having been done, though some of the three and four storied houses up the valley look as if a very little would bring them down; our old friend, 'the oldest inhabitant,' never felt such a severe shock, unfortunately he is not sure to twenty years or so, how old he is. The villagers generally explained the earthquake by the fact of the bull supporting the earth on his horns, getting tired and shaking his head a bit; what asked why then do not go this valuable animal up, and plough with him they admit that it is a good idea, but that it never struck them before. My cook, more advanced in science, tells them they are benighted idolaters, and that earthquakes are caused by the fiery waves of *dozakh*, rolling beneath the earth."

SIR SALAR JUNG has apparently had enough of lady doctors. Dr. Nancy Monelle, who was put in charge of a Dispensary at Hyderabad, has now married, and gone away with her husband to Lucknow. The Nizam's Government have no intention, it is said, of appointing a successor to her, and the Dispensary is therefore permanently closed. The *Deccan Advertiser* remarks, "That the experience amongst good has been effected there during the last two or three years, is unquestionable. Upwards of 40,000 cases were treated, and we may take it for granted that a large proportion of these would never have been submitted to a (male) doctor." Lucknow, adds our contemporary, is to be envied "in robbing Hyderabad of one who was not only among the busiest of its working bees, but an ornament of its social circle. Cheery, bright, and witty, the Lady Doctor will long be missed." Dr. Nancy Monelle has now become Dr. Monelle Mansel.

NOT only is the agricultural world turned upside down, says the Lucknow paper, through the recent freak of the seasons by which we lost an entire monsoon, but even Nature itself seems fitfully-inclined too, for we notice that the King's mulberry tree, in the Military prison grounds, which usually sheds its ripe fruit in early summer —May, we believe—and its leaves about this time of the year, is now partially covered with mulberries, and the fruit is of much the usual character in regard to both size and quality. The weather is now unusually mild for mid-November, and this may account in part for this latest freak of Nature.

A CASE of some importance to debtors taking shelter in Native States has turned up at Jeypore. A man owed a certain sum of money to a banker at Ajmere, and took refuge at Jeypore. One day when the debtor had gone to the railway station on some business, his creditor got him arrested under a warrant from the Ajmere Court through the Political Agent of Jeypore. The Durbar took objection to this procedure, and remonstrated against it to the Political Agent, who released the man. This shows that no decrees of British Courts can be enforced within the precincts of railway jurisdiction in Native States. The debtor has now brought a suit against the creditor for damages in the Raj court for one lakh of rupees. The case is still *sub judice*, and it remains to be seen who gets the best of it.

THE writer of an article on 'Carriages and Roads' in the October number of the *Quarterly Review* says:—"It was only the other day that the member of a New York firm passed through London on his way to continental cities. He had already visited India, China, Japan and Australia with his patterns for materials which enter into the construction of carriages—such as spokes, hubs, bolts, leathers, &c.; so that we have in competition with us not only the New York carriage-builder, but the manufacturer of material to send ready to the colonial constructor at Melbourne and Sydney. And if the orders obtained (of the number of which he did not seem to complain) were executed according to sample, it was certainly not cheap clocks or wooden nutmegs that he had been attempting to supply. Indeed in one case he had been seeking orders for certain buckles, rings, terrets, hames, &c., which would raise the price of any harness where they might be used from 25 to 75 per cent, and this for ornamental as well as strictly useful purposes. And that this word ornamental may not be mistaken for the mere addition of garish and expensive metals, let us add, in all fairness to the American, that the principle of these mountings involved the manufacture of the neatest as well as the most durable harness, for the metallic parts, that we have yet seen, inasmuch as all metal was covered by a durable rubber coating, and neatness and solidity were obtained far beyond anything yet presented in this kingdom of good harness-work."

MANY witticisms have, says the *Spectator*, been lavished on the great loss of Russian officers in this campaign, and we have been told that the Turks had in consequence even been instructed by their superiors never to fire on a Russian General, lest he should unfortunately be replaced by a man of some military capacity. It appears, however, from a very elaborate return compiled by the Germans of their losses in the Franco-German war, that very nearly as large a *proportion* of the generals were killed and wounded as of the non-commissioned officers and privates, and a very much larger proportion of Staff Officers. Thus 2·56 per cent. of the Generals were killed, and only 2·60 per cent. of the non-commissioned officers and privates; while 8·72 per cent. of the generals were wounded, and only 9·98 per cent. of the non-commissioned officers and privates. Of the Staff Officers, however, no less than 8·67 per cent. were *killed*, and as many as 18·22 per cent. were wounded. Thus, even in an army so admirably disciplined as the German Army, it is obvious that the Staff Officers run a very much higher proportionate risk than any private soldier. How excellent was the discipline is to be gathered from the fact that while the total number of killed, wounded, and missing was about 14 per cent., decidedly less than two per cent. (to speak precisely, 1·68 per cent.) were missing, and in every grade above that of non-commissioned officers and privates the number of missing was hardly more than one-half per cent. The exceptional risks run by high officers, then, does not seem to be peculiar to the Russian Army.

ARRIVAL OF H. E. THE GOVERNOR AT BROACH.

(FROM OUR OWN CORRESPONDENT.)

BROACH, Nov. 17.

H. E. THE GOVERNOR and Staff arrived here yesterday morning by the mail train. The station and the Nerbudda bridge were tastefully decorated for the occasion by the Railway authorities. By some mismanagement, the platform was crowded with a miscellaneous lot of people, who, as soon as the train drew up, made a rush towards the Governor's carriages. His Excellency was received by Mr. Loch, the officiating Collector; and on the platform were the Civil Surgeon, the Superintendent of Police, Messrs. Forbes, Grogan, Davies, Bayly, White, and Sleater, the Hoozoor and the District Deputy Magistrates, Messrs. Pranlal and Choonilal, Messrs. Cullianrai Desai, Nusserwanjee Bomonshaw Mehtajee, Sorabjee Pallonjee Frenchman, Nusserwanjee Sheriarjee Ginwalla, Dinshaw Jamsetjee Dustoor, Motilal Choonilal and the Mamlutdars. Mr. Loch introduced the several officials and gentlemen present to His Excellency, who had a gracious word to say to one and all. After making some enquiries from Mr. Loch, and Messrs. Pranlal and Choonilal, the Magistrates, with respect to the town and public matters, His Excellency proceeded to the waiting room and there partook of *chota hazree*. The Mamlutdars left for the steam launches which were to carry them to the May Frere, which lay down the river, and cheers and hurrahs from the assembled Europeans and natives greeted their departure.

BOMBAY.

CRIMINAL SESSIONS.—Up to Saturday last there were nine cases committed to the next Criminal Sessions which commences to-morrow.

HER MAJESTY'S s.s. Daphne, Commander Candy, arrived at Kurrachee from Muscat on the 10th instant.

At the particular request of some of the members of the Kurrachee Bar, Major Grant, Acting Judicial Commissioner in Sind, has called a meeting of the Bar to consider the subject of the Mookhtiars, or lawbrokers, who infest the purlieus of the Courts there as they do elsewhere.

MR. SORABJEE JEEJEEBHOY'S DEATH.—We regret to learn of the death, yesterday evening, of Mr. Sorabjee Jeejeebhoy, the eldest brother of our well known townsman, Mr Byramjee Jeejeebhoy, C.S.I. Mr. Sorabjee was the third son of the late Mr. Jeejeebhoy Dadabhoy, who was for many years a leading member of the Parsee Punchayet. He was once very successful in business, but having some years ago suffered heavy losses in cotton, had since been leading a retired life. His remains will be carried to the Tower of Silence this morning from his residence in Bora Bazar Street, Fort.

DEATH OF MR. ARDASEER CURSETJEE WADIA.—We regret to announce the death of a very old member of the Wadia family, that of Mr. Ardaseer Cursetjee Wadia, who died (as his family have learnt by telegram) at his residence in Richmond, Surrey, on the 16th instant. Mr. Ardaseer was the first Chief Engineer of H. M.'s Dockyard at Bombay, and was sent to that post by the East India Company after receiving his education in England. He built the factory and put up and started all the machinery in the Dockyard, and after 30 years' service he retired, being succeeded by Mr. J. Maclaren, who again made way for the gentleman who at present holds that appointment, Mr. Mathews. On the retirement of Mr. Wadia from the service of Government, he returned to England, but again came to India, having been engaged by the Sind and Punjab Railway to superintend the organisation of the flotilla of this company. One of his sons, Mr. Rustomjee Ardaseer, now holds the appointment of Assistant Engineer and Builder in the Dockyard, and another son, Mr. Merwanjee Ardaseer, is the founder of several of the Spinning Mills in Bombay.

SIR RICHARD TEMPLE, the Governor of Bombay, may be truly said to

"have a noble and a true conceit
Of god-like amity."

His Excellency has given proof of this again and again already during the few months, in which he has been charged to represent Her Majesty in this fair province of Western India; but on no occasion has he given stronger proof than in the two weeks he paid during the past week, on Monday to St. Xavier's College and on Tuesday to St. Mary's. We admire the Governor who, having the strongly developed instinct of doing good, has had the courage to say to his beholders

"I never did repent for doing good,
"Nor shall not now:"

and forthwith he resolved to pay a visit, not of state but as of amity, to the two largest Catholic institutions in the city. The events of these visits have been narrated in the daily papers, and it is therefore sufficient for us frankly and sincerely to thank His Excellency for the amity thus shewn to the Catholics of Bombay.—*Bombay Catholic Examiner.*

CRIMINAL BREACH OF TRUST.—Mahadoo Gopall, a Hindoo clerk in the employ of the G. I. P. Ry. Co. in the Traffic Manager's Department, was, on Saturday last charged before Mr. Nana Morojee with criminal breach of trust, in respect of a sum of Rs. 33-11, being portion of the amount recovered by accused for certain periodical season tickets issued by him. Mr. Little (of Messrs. Hearn, Cleveland, and Little,) appeared for the prosecution. The evidence went to show that the prisoner had issued season tickets to certain parties for which the fare was paid up to Tannah, whereas the prisoner had entered the fare to Parell only in the counterfoils of the passes, appropriating the difference that had been paid to his own use. The case stands adjourned to Saturday next.

SORABJI BOMANJI PESTONJI has written an "Easy Interpreter" intended to help native learners of English. Some of his interpretations are free, as well as easy; for instance, he explains—"to go a-Maying" as meaning "to go a hay-making;" "singing in tribulation" is "confessing when put to torture;" and best of all, perhaps, "to scrape acquaintance" is the same as "to curry favour (a love phrase)." Other phrases that he explains are not always recognised by the Educational Department: "Is your dander up," for instance; and "to fret the gizzard."

DR. HAMILTON, in the *Indian Medical Gazette*, explains very clearly how he would gradually abolish a very great evil, the regular issue of raw spirits to the army in India. The fact of this being an evil hardly needs further proof; four ounces of raw rum daily cannot be taken with impunity; and the sooner the habit is dropped the better. Of course the reform could not be carried out all at once. Dr. Hamilton would still issue rum to the regiments already in India, but none at all to the canteens of new comers. Malt liquor he would still issue at the rate of two pints a day, and sell a further quantity at a reasonable price. As a help to the reform, Dr. Hamilton strongly advocates the supply of iced drinks to the men.

A STRANGER, writing of Bombay to a Montreal paper, speaks as follows of the tramway:—"The tramway cars pass often at the east front of the public buildings, and go from Colaba on the south to Byculla on the north, having several diversions. These cars are new, at least are kept bright and clean. The horses are good. Time is rapid. The time table is punctually observed. Public confidence has been won after it was long withheld. The road is frequently repaired, and kept in proper condition for the horses' feet. One can ride three miles for two annas. The history of this tramway has a record of daring, energy, perseverance, and success. The secret of its gain of confidence has been that it comes in on time. No tramway can live on uncertainty."

COLONEL BROOKE'S APPOINTMENT.—We protest against the wholesale reservation of important posts to the personal staff of any Commander-in-Chief, and especially to the staff of Lord Napier. Neither this General nor any of his following have established claims on the country which can justify the flagrant nepotism which has provided for them in all quarters. Colonel Brooke has been one of the most favoured of these. From being an Aide-de-camp he was made a Brigade Major, then an Assistant-Adjutant-General, and three years ago, by an arrangement widely characterised as a pronounced job, he was made Deputy Adjutant-General of the Army in India. His experience as a regimental officer has been limited to that of a Captain in a British regiment, his war service to a single and not a brilliant campaign. His ability is altogether unproved, and his reputation yet to be made. Why, then, is he selected to be Adjutant-General in Bombay? Wholly, as we believe, by the reason of the influence of the Simla society alluded to, on the baneful effects of whose power we have had but too frequent cause to remark. Belonging to a school distinguished for poverty of head, as for nimbleness of heel; for political and military blindness, as for perception of the nice conduct of a petticoat; for an epicurean enjoyment of departmental indolence, as for some bodily activity in the rink or ball-room; we cannot congratulate the Bombay Presidency—and Army on the appointment of Colonel Brooke.—*Civil and Military Gazette.*

CHORAL FESTIVAL.

THE fifth annual Festival will be held on Thursday the 22nd instant, in St. Thomas' Cathedral. Service will commence at 6 p. m. The sermon will be preached by the Rev. C. F. H. Johnson. The balance of the offertory, after defraying expenses, will be devoted to the Choir Endowment Fund.

Copies of the Festival music can be purchased at the S. P. C. K. Depository, Meadow Street, at Messrs. D. S. Kemp and Co.'s Fort Establishment, and also at the Cathedral—price 6 annas.

DAVE CARSON AT THE GRANT ROAD THEATRE.

ON Saturday night, for the first time since his arrival, Mr. Dave Carson's entertainment at the Grant Road Theatre met with something like the support which it deserves. There was a good house and a good assortment, all divisions of the theatre being fully occupied. The programme was an attractive one, containing several items which are new to Bombay, and its promise of a good evening's amusement was amply fulfilled. "Old Dave," as he is beginning to be called in India, was in fine form, and threw out his humanities with great gusto. There were some jokes the point of which was somewhat dulled by old acquaintance, but there were many new ones also; and as the proverb that "familiarity breeds contempt" is not without exceptions, so Dave's hits are always greeted with a hearty laugh, however often the laugher may have laughed at the same puns before. Mr. Norville, Mr. Ferrell, and Mr. Arnold were all in good voice, and sang well; but Mr. Norman's fine singing powers were spoiled rather by an unfortunate bad cold. Mr. Rollings' "Champion American Prize Jig" is worth seeing; and Little Rita appears to be even unusual advantage as "The Pride of the Rink," in which character she sings a lively rinking song, while sailing about the stage, performing graceful manœuvres on a pair of roller skates. The performance concluded with the farce "The Artful Dodge," in which appeared Mrs. Leslie, a lady who is a recent addition to the company.

MARINE COURT OF INQUIRY.

ON Thursday, at the Fort Police Court, an investigation was opened before Mr. W. Webb, the acting Chief Presidency Magistrate, and Captain G. O'B. Carew, of H. M.'s Bombay Marine, into the circumstances connected with the wreck of the ship Rahmany, off the coast of Ratnagherry, on the 9th August last. Mr. Cleveland, the Acting Government Solicitor, appeared to watch the proceedings on behalf of Government.

Captain Thomas Paddy, the commander of the ship Rahmany, was examined. He said that he held a master's certificate from the Board of Trade, dated 10th Dec. 1864. The Rahmany was a barque built in Bombay in 1842, the registered tonnage being 563 tons, and was built of teak. She was owned by Mr. Pestonjee, named Cowasjee Jamsetjee, living in Bombay. He took charge of the vessel as commander on the 5th August last, under an engagement for 12 months, to take her to Carwar and from thence to Penang, Singapore, and Bankok. She had a full cargo of grain on board, in Bombay, and was in good order and repair. She left Bombay harbour on the 6th August last. The crew were composed of a Mussulman mate and native lascars, also an Eurasian mate. The mate could speak but little English. He captain therefore gave his orders partly in English and partly in Bengalee. The surveyors' certificate was produced, which stated, "sails not well provided. The ship had only one jib, and that was old and rotten; the other sails were in middling order, except the topgallant sails which were in good order." He was not aware the jib was old and rotten before proceeding to sea. The mate told him the jib was in good order, and that he had canvass on board to make a new jib. The duties of the clerk were to keep the log, which was dictated to him by the captain. When the pilot left the ship, off Bombay harbour, she was on the port tack and continued so until about 3 o'clock on that day, and then stood on the starboard tack until 10 o'clock, when the weather became slightly squally. About half-past 4 o'clock, the carpenter reported that there were 12 inches water in the well, when the Captain ordered the ship to be pumped out every two hours, which operation was duly carried out. At about 7 a.m. of the 8th August, the mate reported that the pumps were choked, and on examination it was found that they were choked with grain. The main hatches were then taken off, and it was discovered that the grain was close up to the lower decks; when measured the water was seven feet in the well. The ship was then in a sinking state. On looking at the chart, the ship was found to be off Ratnagherry, and the weather up to that time was rather squally. No reports was made to the captain by the mate, as any one else that the ship was making more water than usual, until that of the mate on the morning of the 8th August. It was the duty of the mate to report to the captain anything that was going wrong. At midnight, on the 6th August, after the pilot left the maintopgallantmast and maintopmast cross trees were carried away; the maintopgallantsail was set at this time. The mate was ordered to call the captain at midnight of the 6th August in order to tack ship, but he neglected to do so, and tried to tack the ship himself, and in doing so carried away the maintopgallantmast. The mate is not accountable for the ship's leg, and knows nothing about it. From enquiries made by the captain after getting on shore, he discovered that the reason for working the starboard pump was, that the pump on the port side was choked, which occurred at 6 o'clock on the evening of the 7th August, and it was 7 a. m. of the 8th when it was reported to him that the pumps were choked. On finding the ship in a sinking state, he could not run back to Bombay because he had only a leading wind, and he had no jib. It was about 8 a. m. of the 8th when he decided to run for Ratnagherry. He steered for the light, and by E. ½ E. the yards were squared, and he stood for the lighthouse. The ship ran in and anchored about 10 a. m. in 5½ fathoms of water, and 45 fathoms of port chain were then run out, and the starboard anchor let go. She was about three quarters of a mile from the lighthouse, bearing about S.W., of which he was not quite sure, as on looking at the chart he found the light house bore about north. At the time the ship anchored there was 7½ feet of water in the well, which they were not able to reduce. The chain cable parted about an hour after the ship anchored. It was about fifteen minutes after the ship anchored the captain went on shore, and returned in about an hour.

At this stage of the evidence the Court adjourned to the 20th instant, at noon.

PROPRIETOR, PALLONJEE PESTONJEE.

MR. CAWASJEE PALLONJEE, the son of the late old Pallonjee Pestonjee, the well-known Proprietor of the above Popular HOTELS, begs most respectfully to announce to the Ladies and Gentlemen and to the European Gentry generally, that he has, in deference to the expressed wishes of most of his late father's friends and admirers, and with the object and desire to perpetuate his father's good name in connection with these Hotels, at a very considerable cost now become the sole purchaser and owner thereof.

Mr. Cawasjee will endeavour to treat his patrons with the same courtesy and attention which was so characteristic of his good father, and this, coupled with long experience and intimate acquaintance with the routine and management of the Hotels in his father's life-time, will, he trusts, be a sufficient guarantee of the Hotels being carried on upon the principles inculcated by his worthy father.

FOR SALE,

THE COTTON PRESSES and FINISHING PRESSES of the NICOL PRESS and MANUFACTURING COMPANY, LIMITED, as they now stand in the Company's Press Building in the Fort, between the Custom House and the Government Bonded Warehouses.

The Presses consist of six Hydraulic Cotton Presses; the Cylinders are 13 inches in diameter and the Rams rise about 13 feet; all in perfect working order with distribution Valves, Wrought Iron Hydraulic Piping, &c. complete.

The boxes are capable of holding 400 lbs. easily.

Three Finishing Presses by Hick, Hargreaves & Co., of the newest construction on a plan of the Company's late Engineer, Mr. Bomanjee Framjee Warden, of 2 Cylinders each. The Cylinders are 14 inches in diameter.

There is one spare Cylinder for the Presses and two spare Wrought Iron Columns and one spare Cylinder for the Finishing Presses.

The Presses are driven by double Cylinder Beam Engines, by Fawcett and Preston, of 60 H.P., and two Rollers 26 feet 3 inches by 7 feet and 26 feet by 5 feet 6 inches, by Clayton; all in good order and sound condition.

The Press Building faces the Government Custom House Wharf, and the Company has the privilege of shipping at the Wharf Free of Charge, so that the expense of removing the Presses for conveyance to any place on the Sea Coast would be very trifling.

Also, 1 Whitworth Lathe 12 inches centre and about 18 feet bed. 1 Drilling and Boring Machine in sound condition.

2 Portable Fire Engines with Suction and Delivery Hose, complete in good order.

1 Circular Saw with Bench.

The Presses and Machinery can be seen at any time on application to the Secretaries and Treasurers, Messrs. W. NICOL & Co., Elphinstone Circle.
